CC: Superintendent of Gardens, MCGM

CC: Municipal Commissioner, MCGM

CC: Mr D. Stalin, Vanashakti (NGO)

Dear Sir,

Avenue trees are being choked at their base due to concretization in several areas of Mumbai.

As you may be aware that an order by the National Green Tribunal directed the MCGM to remove the concrete and create tree basins to help these trees get adequate water and nourishment (Order #13, dated 16 January 2015)

This has not been complied with for the following tree(s):

Tree number: \_\_\_\_\_

Location: \_\_\_\_\_

Landmark 1: \_\_\_\_\_; Landmark 2: \_\_\_\_\_

We request that a tree basin be made at the earliest, as per NGT specifications (1mX1mX1m), all rubble be cleared and adequate soil be provided. Please inform us of the same, so that we can do site inspections and close the complaint.

Regards,
